The 95th TSUCHIURA ALL JAPAN FIREWORKS COMPETITION

Time and date: 5:30pm-8:00pm Saturday, November 7, 2026

Venue: Sakuragawa Riverside (Gakuen-ohashi area)

Station: JR Tsuchiura Station (Joban Line)

Mariko Ando

Chairperson of Tsuchiura All Japan Fireworks Competition

Mayor of Tsuchiura City

Welcome to "The 95th Tsuchiura All Japan Fireworks Competition" today. On behalf of citizens, I would like to give my warm welcome to all spectators here today.

I am truly delighted that we are able to host this grand event - which began in 1925 (T14) and celebrated its 100th anniversary last year, having carried on rich history and tradition - and to welcome so many people across the country.

I also would like to express my heartfelt gratitude to all the relevant organizations that have made tremendous effort to make this event possible, as well as to the companies and groups that have provided sponsorship, and to the citizens of Tsuchiura, who have shown us warm understanding and cooperation over the years. Furthermore, I would like to express my deepest respect to the pyrotechnicians from across the nation who have gathered here in Tsuchiura, with exceptional skills through repeated practices and passion as they strive for the Japan's best award, and will set the clear fall sky with magnificent fireworks.

Originally began by late Reverend Baiho Akimoto, a Buddhism priest of the Jinryuji Temple, used his own money to hold a fireworks event on the shore of Lake Kasumigaura, which purpose was to commemorate those who died in the service of Kasumigaura Naval Air, to aid the recovery of commercial district struggling through the recession after the Kanto Great Earthquake, and to express gratitude for the fall harvest and farmers. After that, late Giichi Kitajima, a pyrotechnician from Tsuchiura and long-time served as a chairperson of the Japan Pyrotechnics Association, formerly known as the Japan Pyrotechnics Industrial Association, for many years, carried this event forward. Now it is one of the nation's premier fireworks Competitions.

This honorable Competition consists of three divisions, 'Starmines', 'Size 10 shells', and 'Original displays'. Each prestigious award including the Minister of Economy, Trade & Industry will be given to a winner of each division. Especially, the Prime Minister Award given to the best of winner of three divisions is a great goal for the pyrotechnicians, who have the world's highest level of excellence, and it is a perfect stage for them to present all their refined skills. I would like everyone to enjoy the art of fire and music created by pyrotechnicians.

As Tsuchiura City, we are committed to ensuring that many people from Japan and abroad enjoy this Competition, and we spare no effort to make it even more appealing than ever as we look ahead to the 100th event in five years. We sincerely ask for the continued support and cooperation of all those involved.

Lastly, I would like to extend my deep appreciation and welcome for citizens, pyrotechnicians from long way through the country, judges who accepted this job and all those involved in this Competition to give us cooperation and assistance.
